Note 1: Above Chart works out Monthly Pension (Col. F) as per 10th BPS and Monthly Pension (Col. M) as per 11th BPS for the month of **August 2020**.

Note 2: Commutation is computed on the assumption that employee has retired on Superannuation i.e at the **age of 60**. Hence commutation factor considered is 9.81 in column G and N. (In other cases you have to work out at following rates (age/factor) : 51/12.95; 52/12.66; 53/12.35; 54/12.05; 55/11.73; 56/11.42; 57/11.10; 58/10.78; 59/10.46; 60/10.13; 61/9.81 Here Age mentioned is Age as on next birth-day after retirement.) .

Note 3: In above chart Pension and Commutation is worked out on the basis of **BASIC PAY ONLY**. Other elements like Professional Qualification/Graduation Allowance, Fixed Pay Allowance etc. are not taken into consideration. Hence your old pension/commutation amount as per this chart will not match exactly with pension/commutation received by you.
